

Status: March 2012 - Boilerplates in press releases for the corporation and divisions

With sales of €30.5 billion in 2011, **Continental** is among the leading automotive suppliers worldwide. As a supplier of brake systems, systems and components for powertrains and chassis, instrumentation, infotainment solutions, vehicle electronics, tires and technical elastomers, Continental contributes to enhanced driving safety and global climate protection. Continental is also an expert partner in networked automobile communication. Continental currently has approximately 164,000 employees in 46 countries.

The **Automotive Group** with its three divisions Chassis & Safety (sales of approximately €6.5 billion in 2011, 33,000 employees), Powertrain (sales of approximately €5.8 billion in 2011, 31,000 employees) and Interior (sales of approximately €6.1 billion in 2011, 32,000 employees) achieved sales of approximately €18.5 billion in 2011. The Automotive Group is present in more than 170 locations worldwide. As a partner of the automotive and commercial vehicle industry, it develops and produces innovative products and systems for a modern automotive future, in which cars provide individual mobility and driving pleasure consistent with driving safety, environmental responsibility and cost-efficiency.

The **Chassis & Safety** Division develops and produces electronic and hydraulic brake and chassis control systems, sensors, driver assistance systems, airbag electronics and -sensors, washer systems and electronic air suspension systems. Its core competence is the integration of active and passive driving safety into ContiGuard[®]. The **Powertrain** Division integrates innovative and efficient system solutions for vehicle powertrains. The comprehensive range of products includes gasoline and diesel injection systems, engine management, transmission control, including sensors and actuators, as well as fuel-supply systems and components and systems for hybrid and electric drives. Information management is at the very heart of the **Interior** Division, which provides a range of products that includes instrument clusters and multifunctional displays, control units, electronic car-entry systems, tire-monitoring systems, radios, multimedia and navigation systems, climate control systems, telematics solutions and cockpit modules and systems.
