

Continental Motorcycle Tire Product Information

Enduro / Off Road

Conti **G**elände **S**port Intermediate

All-around motocross tire for training and racing on soft to hard terrain. (NHS)

Features Front Tire:

- High traction and stability during braking, thanks to the CAD-calculated knob geometry
- Stable in deep lean angles with maximum directional stability and exact steering
- Very good self-cleaning ability
- Modern „Black Chili“ tread compound for longer life and even wear of knobs during braking and cornering
- Very good side stability at high cornering speeds, thanks to high traction from the triangular positioned side knobs

Features Rear Tire:

- Extremely high holeshot traction for fast acceleration out of the gate and out of corners
- Reinforced X-ply construction with good inherent damping for more stability and control in slides and jumps
- Newly developed compound for constant grip, even in longer races, all combined with a long life
- Very good transfer of braking forces through an optimal pattern with broad, transverse knobs

Size

Front wheel

80/100 - 21 M/C NHS	51	M	TT
