

## Extended Mobility System: ContiComfortKit (CCK)

### The safe and convenient replacement for the spare tire

- A combination of a 12 volt compressor and liquid sealant.
- One can continue to drive until you change the tire; for up to 125 miles at a maximum speed of 50 mph (load depending).
- Simple and easy to use, provides mobility in minutes.
- Works with TPMS systems and does not require valve stem removal.

### Comfort-oriented: The ContiComfortKit

The compressor and sealant in a comfortable, complete kit.

- Ford Motor Company and Volvo have issued approval for the kit. Currently in series production for the Volvo BiFuel and Ford vehicles with alternative transmission technologies. Will be supplied for the Volvo V/S50 and Volvo XC90.
- The ContiComfortKit is currently supplied for the Ford GT.
- The ContiComfortKit is now available for the replacement market.
