CONTINENTAL PRESS-ON-BAND (POB) PT18

Continental is pleased to introduce its newest product offering - PT18. This new tread pattern was inspired by the very well received tread pattern of Continental's SC18 resilient tire line.

The full sized POB tread has been designed for the North American market providing a wider footprint and increased lug to void ratio to assist on uneven and wet surfaces such as:

Loading Docks
Outdoor Applications
Ramp Inclines

PT18 is available in Continental's Elastic low rolling resistant Standard and Clean Compound in the following size offerings:

TIRE SIZE

16x5x10 $\frac{1}{2}$
16x6x10 $\frac{1}{2}$
18x6x12 $\frac{1}{8}$
18x7x12 $\frac{1}{8}$
18x8x12 $\frac{1}{8}$
21x7x15
21x8x15
21x9x15
22x8x16
22x9x16
22x12x16
